

Kyocera Tycom Corporation's Environmental Policy
December 2007

KTC is committed to environmental excellence.

KTC's environmental policy is as follows:

1. Strive to conserve natural resources and minimize or eliminate adverse environmental impacts associated with the manufacturing of products, services and operations.
2. Commit to comply with, or where applicable, exceed all local, state and federal environmental laws and regulations, along with all corporate and other outside requirements,
3. Commit to continual improvement in environmental performance including prevention of pollution based on defined and measurable objectives and targets.
4. Provide environmental and management system training to all levels of our associates and contractors as appropriate to their job function.
5. KTC's environmental policy is available to the public, through the company's website.
